SUMMARY

- Seasoned Controls Automation Engineering professional with almost **13 years** of experience in industrial automation, consistently delivered end-to-end automation solutions across diverse sectors including semiconductor, Automotive and Health-Tech.
- Extensive experience working with **System Integrators, Machine Builders, and Control Panel Manufacturers**, contributing across the full automation lifecycle with Hands-on expertise includes control panel design, testing, wiring, erection & commissioning, programming, service support, and production support**.**
- Strong technical capabilities in dealing with Controls like **PLC, SCADA, HMI, Motion controllers, Robot, Vision and Industrial communication protocols**. Technically adept in Siemens, Mitsubishi, Allen Bradley and other PLC platforms, with programming proficiency in **IEC 61131-3 (LD, FBD, SCL, ST), Motion Script and C#.**
- Capabilities in Team leadership with notable job roles includes **Team lead** for software development and testing, **Reporting Manager** for Resource Management, and **Scrum Master** in Agile project environments.

Looking forward to work with an organization where my previous experience and skills can be an asset. Always up for the new challenges and eager to develop my skills to meet the needs of the organization.

WORK EXPERIENCE

-Celestica Ireland Ltd – Galway, Ireland

Manufacturing Services - Electronics & Health-Tech

Lead Automation Systems Engineer | Oct 2025 – Present

Roles & Responsibilities :

- Support day to day **NPI activities for high-speed automated manufacturing systems for Health-Tech client**, focusing on PLC-controlled equipment, robotics, vision systems, and manufacturing data integrity within regulated clean room environment**.**
- **Collaborative effort:** Collaborate closely with IT, process, operations, and external vendors to deliver comprehensive system support for automation.
- **Continuous Improvement:** Proactively manage and support existing automation infrastructure, including **Allen Bradley PLC's** (Control Logix, Studio 5000), **Cognex Vision Systems** (Vision Pro/ Data Mann), **Epson Robots** and **Rockwell Panel Views** to optimize production line performance.
- **MES & Lot Control:** Maintained PLC-side data structures and handshaking logic to ensure the seamless transmission of lot data to MES via C# .NET middleware.
- **Data Integrity:** Ensuring data integrity and system uptime to guarantee consistent data logging to SQL databases from PLC, SCADA and Vision system.
- **Documentation & Validation:** Manage comprehensive technical documentation and participate in Systems/software validation activities including **IQ, OQ, and PQ** while ensuring compliance with **GAMP 5, 21 CFR Part 11**, and **ISO 13485** medical device standards within GAMP regulated environments.

-HCLTech Pvt. Ltd – Chennai, India

Global IT & Engineering Services – Semiconductor

Technical Manager | Oct 2023 – Sep 2025

Senior Technical Lead | Jul 2021 – Oct 2023

Roles & Responsibilities :

- **Led software development teams in offshore** to support client who build Ion Implanter tools for semiconductor manufacturing : **Simulation Team (C# Programming) & Wafer Handling Team (Motion Control Programming)**

- **Technical Guidance throughout SDLC** phases: requirements, design, development, validation, deployment, and maintenance.
- **Document & Code Review:** Reviewed **SRS, SDS, test plans, regression strategies**, and conducted code reviews to ensure quality and compliance.
- **Agile Project Management:** Facilitated Agile ceremonies including daily stand-ups, sprint planning, and retrospectives; tracked sprint progress and deliverables. Guided the team on agile best practices, resolved blockers (CAPA), and drove continuous improvement initiatives.
- **Resource & Task Management**: Managed resource planning, on boarding, performance reviews, KPI tracking, and domain training.
- **Stakeholder Communication**: Represented the team in **SMR and QBR meetings**, ensuring stakeholder alignment and transparent communication.

-Brain Domain Pvt. Ltd – Singapore

Machine Builder - Semiconductor

Senior Controls Engineer | Mar 2018 – Jul 2021

Roles & Responsibilities :

- Delivered end-to-end **automation solutions for Handlers of package inspection tools (**Reel-to-Reel & Tray), Tester, and Laser Marking machines.
- Managed **electrical and control systems lifecycle**: design, wiring, controls programming, commissioning, and post-production support.
- **End-to-End Automation Support:** Collaboration with design team and management to identify automation challenges and deliver tailored solutions using PLCs, servo systems, motion controllers, and robotics.
- **System Commissioning & Troubleshooting**: Performed system commissioning, troubleshooting, and performance optimization at customer sites.
- **Technical Documentation & Training:** I/O lists, Electrical schematics, SOPs, User manuals, and provided operator training

-XNG Automation Solutions Pvt. Ltd – Bangalore, India

Siemens System Integrator

PLC Programmer | Mar 2017 – Mar 2018

Roles & Responsibilities :

- Delivered **Siemens-based automation solutions** for Automotive, Food, BMS, and Pharmaceutical projects.
- **Commissioning & FAT Execution:** Executed commissioning, FAT, and troubleshooting at customer sites.
- **Technical Expertise and Support:** For Siemens Automation solution products like PLC, SCADA, HMIs, Servo Drives, and VFD Drives etc.
- **End-to-End Automation Support:** Programing support for PLC, SCADA, HMI, and Servo using **TIA Portal**.
- **Technical Documentation:** I/O lists, SOPs and User manuals.
- **Supervision**: Supervised and guided electrical technician teams for field wiring and commissioning.

-Sunlight Automation Pvt. Ltd – Bangalore, India

Control Panel Manufacturer and Automation Solution Provider

PLC Programmer & Commissioning Engineer | Dec 2014 – Feb 2017

Roles & Responsibilities: .

- **End-to-End Automation Support**: Work with machine builders to debug and optimize machine programs. Install, test, and manage electrical or mechanical automation systems.
- Responsible for Programming of automated systems, often using PLCs, SCADA, HMI, and Servo Drives extensively using **TIA Portal and Mitsubishi.**
- **Control Panel Testing & Troubleshooting**: Ensured system integrity through rigorous panel testing, troubleshooting, and service support.
- **Communication and Collaboration:** Liaise with project team members, including designers, mechanical engineers, and other stakeholders. Coordinate with Electrical technician team for field Instruments wiring

Triveni Engineering & Industrial Ltd – Noida, India

Water Treatment & Turbine Solutions

Instrumentation Engineer | Jun 2013 – Nov 2014

Roles & Responsibilities :

- Led a team of instrument technicians for **erection and commissioning of large-scale Water Treatment Plants (PT, UF, RO, DM, and CPU)**.
- Performed **loop checking, calibration, troubleshooting**, and commissioning as per P&ID drawings.
- Planned and coordinated cable routing, instrument installation, and wiring activities.
- Supported **PLC & SCADA operations** for water treatment process automation.
- Ensured strict adherence to safety and quality standards during site execution.

Area	Competencies and Skills
Automation & Controls	Design, Wiring, Programming, Commissioning, Validation and Documentation. PLC, SCADA & HMI, Motion Control, Vision Control and Robotics Integration.
Leadership & Resource Management	Team & Resource Management, Stakeholder Communication, CAPA, KPIs
Software Development (SDLC)	Change Request , Requirements & Design, Code Reviews, Document Reviews, Unit & Regression Testing
Programming Languages	IEC 61131-3 (LD, FBD, SCL, ST), Motion Script & C# (Win form .Net).
Methodologies & Tools	Agile / Scrum, JIRA, IBM-RTC
Validation	FAT/ SAT / CSV / IQ / OQ / PQ
Compliance	GAMP 5, 21 CFR Part 11, ISO 13485, SECS/GEM

Category	Technologies	Software Platform
PLCs	Siemens, Mitsubishi, Allen Bradley	TIA Portal, GX Works, Studio 500 Logix Designer, Codesys
SCADA / HMI	Siemens, Mitsubishi, Allen Bradley	WinCC, Panel View, GT Designer
Motion Controls	TRIO, Omron-Deltas Tau, Yaskawa	Motion Perfect, PowerPMAC IDE, MPE 720
SCARA Robots	Epson, Omron	Epson RC+, ACE
Machine Vision	Cognex, VizCam	VisionPro, WizerPro
Servo Systems	Siemens, Festo, Akribis, Panasonic	
VFDs	Mitsubishi, ABB, Siemens, Schneider	Mitsubishi (MRJ), ABB (ACS), Siemens (G120, V20), Schneider
Industrial Networks	Modbus, Profibus, Profinet, CC-Link, Ethernet/IP, EtherCAT	SECS/GEM

EDUCATION

- **Bachelor of Engineering - Electronics and Instrumentation - [Aug 2009 - May 2013] -** Level 8

Kamaraj College of Engineering and Technology, Anna University, Virudhunagar, Tamil Nadu, India
